EDUCATION

National Institute of Technology, Kurukshetra

Bachelor of Technology, Electrical Engineering

Dec. 2020 – May 2024

CGPA: 8.5

EXPERIENCE

Silzila

June 2024 – Present

Software Development Engineer

- Designed a column interface with user-specific options, enabling personalized configuration of dashboard views, which led to a **25%** increase in user engagement.
- Launched visibility control features for text items, allowing users to selectively show or hide items, resulting in a **30%** boost in feature adoption within one month.
- Developed number-based filtering mechanisms, including conditions like “greater than” or “smaller than,” to refine dashboard data, improving data accuracy by **20%**.
- Enhanced dashboard usability through the integration of targeted filters and visibility controls, leading to a **15%** reduction in data retrieval time.

PROJECTS

Inotebook

Mar 2022 – June 2022

- * Developed Inotebook using React, enabling seamless note-taking across devices with integrated cloud storage, leading to a **20%** increase in user engagement.
- * Established a secure backend for data storage, ensuring the integrity and accessibility of user notes, which reduced data retrieval times by **15%**.
- * Utilized React to design an intuitive frontend, empowering users with efficient note creation, editing, and organization capabilities, enhancing the overall user experience and boosting daily active users by **25%**.
- * **ReactJS, NodeJS, JavaScript, ExpressJS, MongoDB**

Real-Time Chat Application

Sep 2023 – Dec 2023

- * Developed a real-time chat application using the MERN stack resulting in a **40%** increase in communication efficiency. Designed a high-performance backend with MongoDB indexing to support a projected **300%** growth in user traffic.
- * Created a responsive and interactive user interface with ReactJS, enhancing user engagement across various devices and screen sizes. This design led to a **25%** increase in user satisfaction ratings.
- * Implemented Socket.IO for real-time messaging with minimal latency, improving message delivery time by **50%** and providing a seamless user experience.
- * **ReactJS, NodeJS, JavaScript, ExpressJS, Socket.IO**

ACHIEVEMENTS

CodeChef - Max Rating 1848

Codechef Snackdown Round 1A (2021) - World Rank 193rd

InterNIT Codathon 2022 - All India Rank 168st among 5000+ participants

CodeKaze 2021 - AllIndia Rank 1892nd among 100000+ participants

Data Structure and Algorithm (DSA) - More than 900

Newton October Coding challenge - World Rank 249th among 3800+ participants

TECHNICAL SKILLS

Languages: Python, C/C++, SQL, JavaScript, HTML/CSS5,

Frameworks: React, Node.js, Material-UI, MongoDB, APIs, Express.js

Developer Tools: Git, GitHub, Visual Studio Code

Libraries: NumPy, Matplotlib
